YG 8000

Neutrals
NN 9000

SketchUp

❶ Download

Download the SKM folder from the BirlaOpus website. Save it in the default Materials folder inside the default location of the Sketchup Program installed on your computer.

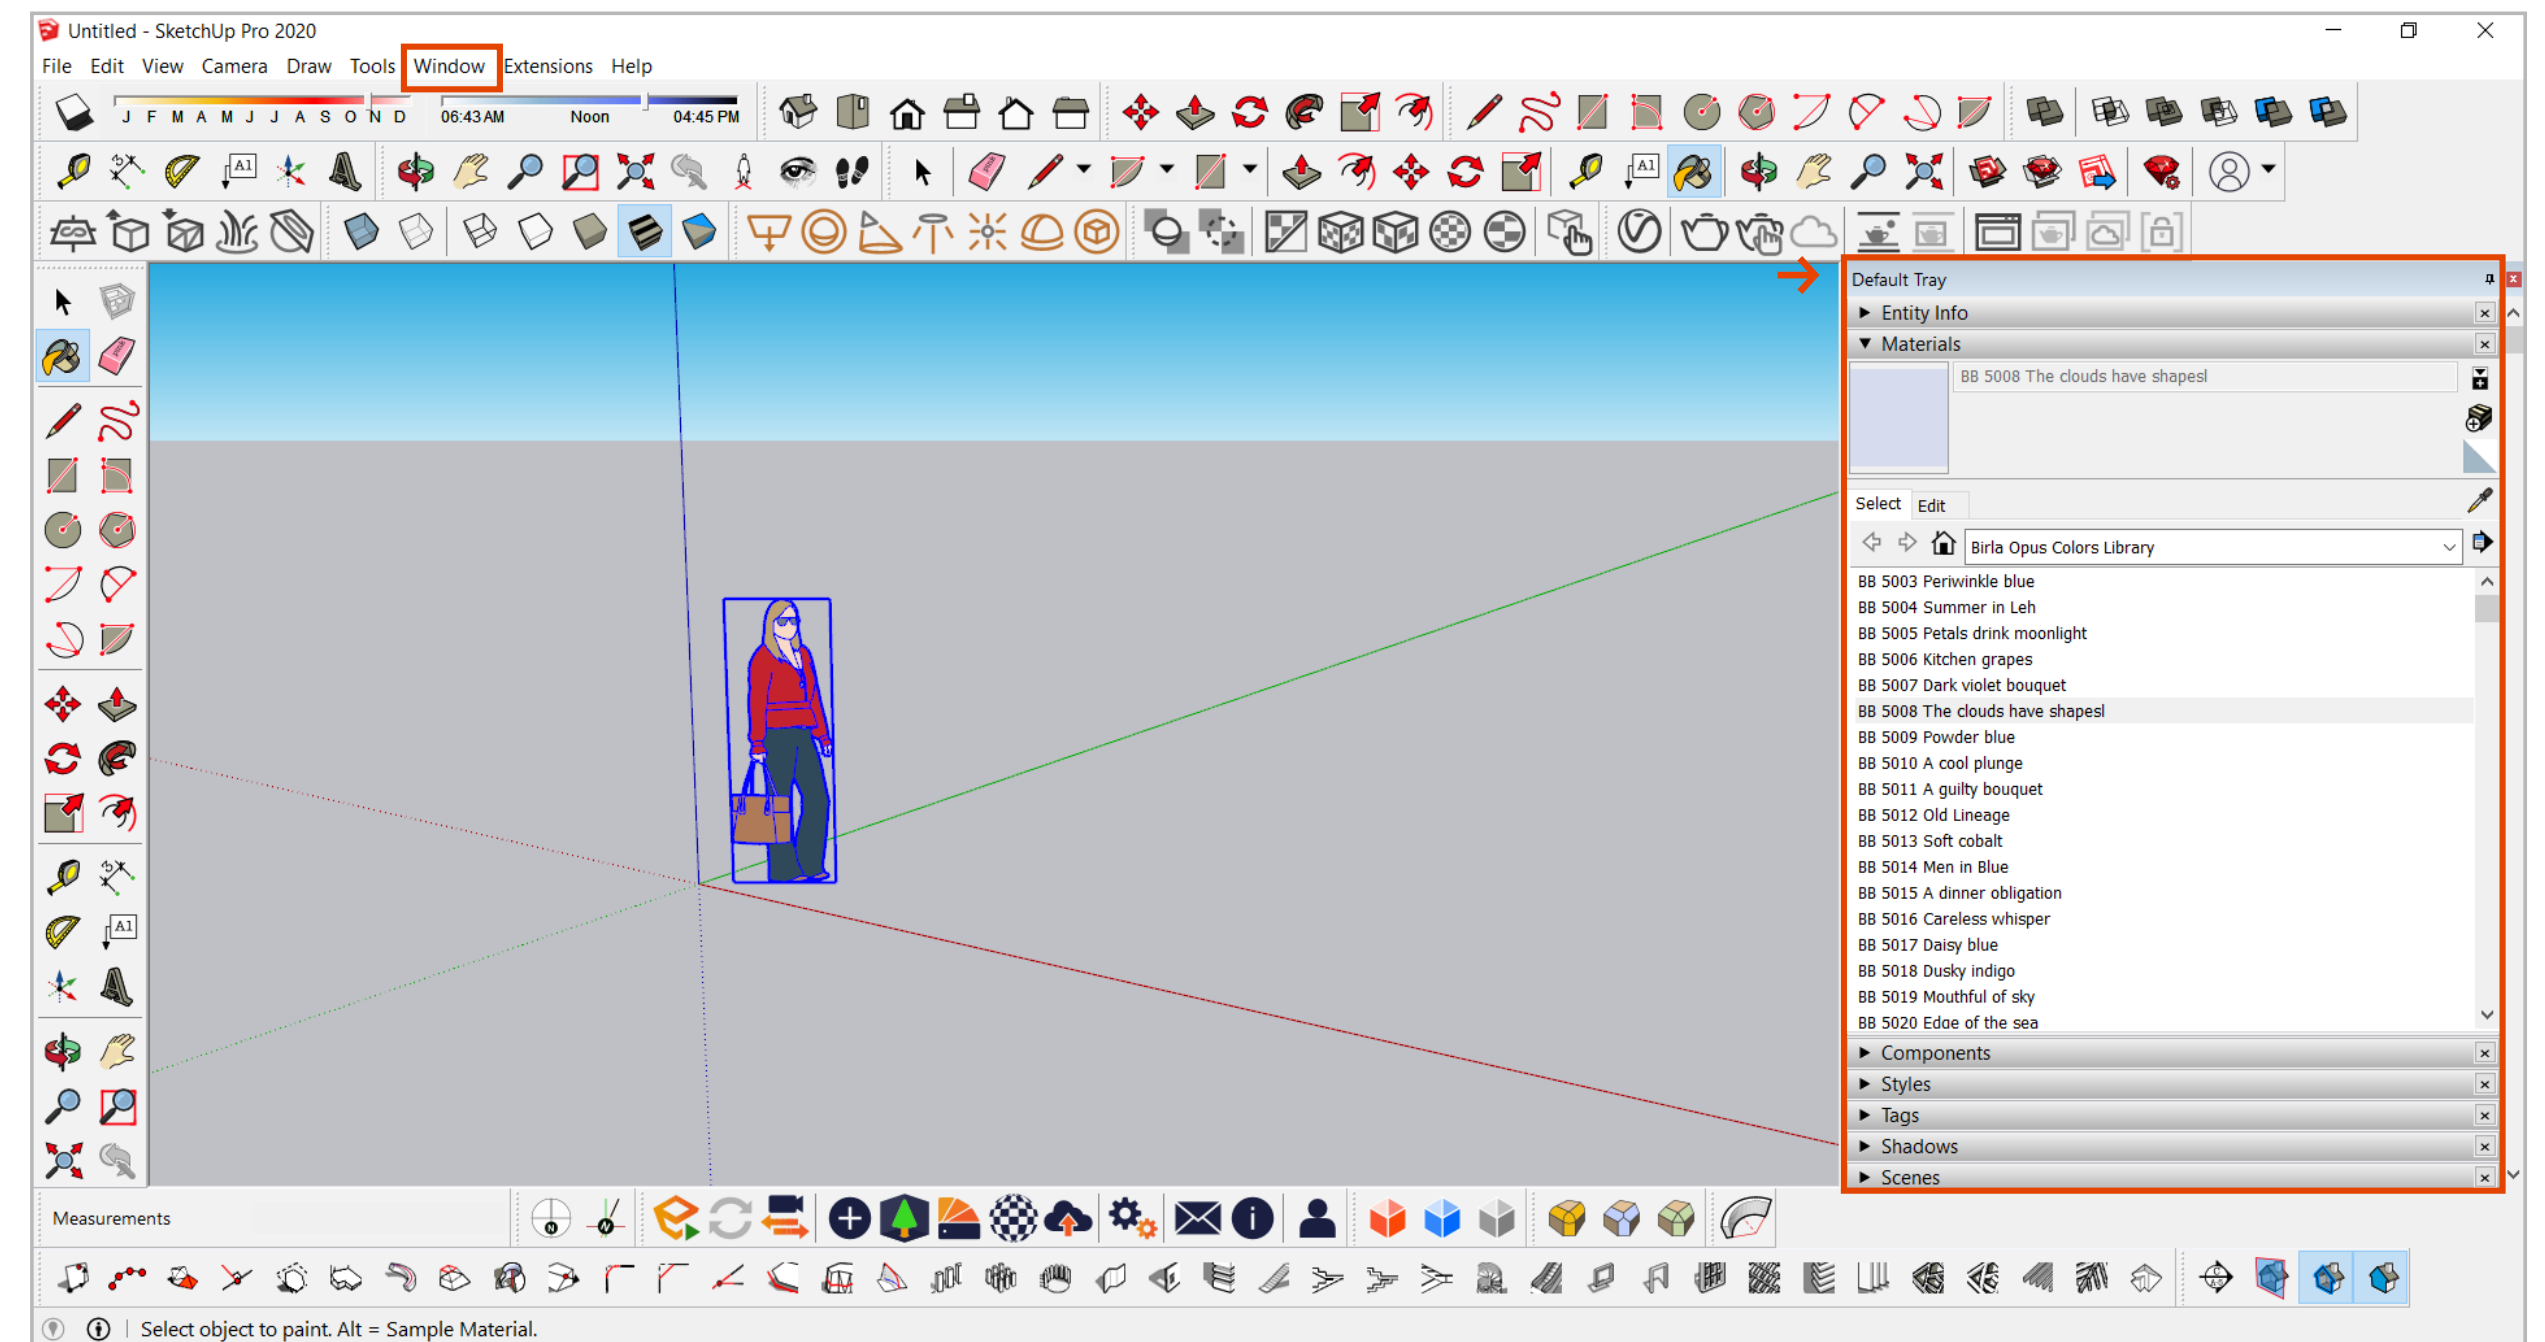

Default folder location:
Mac:*/Applications/SketchUp2020/SketchUp.app/Contents/ Resources/Content/Materials*
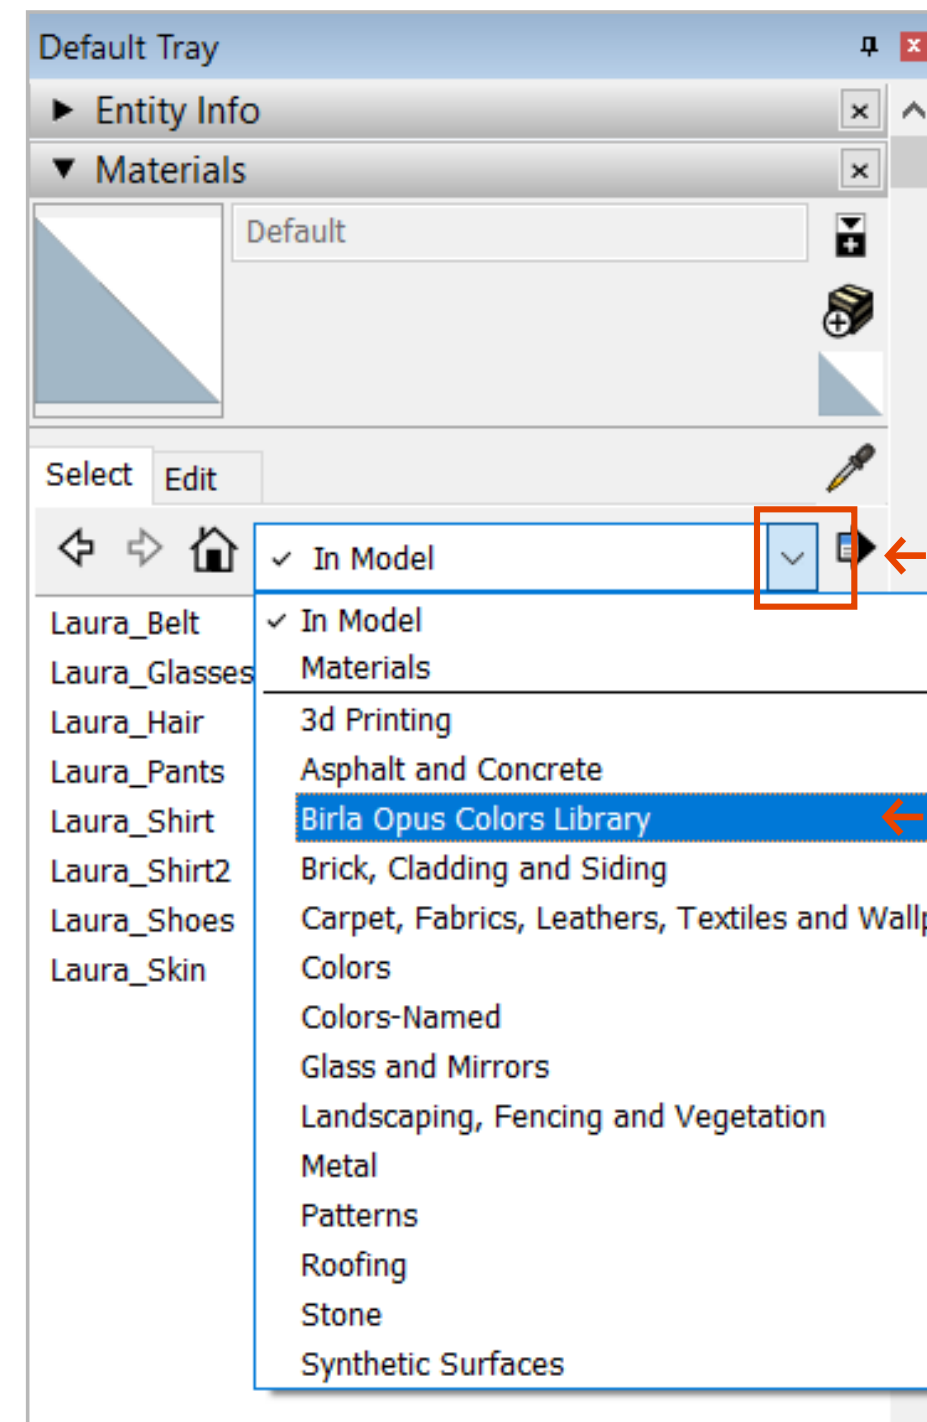

Windows: *c:\Users"Me"\AppData\Roaming\SketchUp*

❷ Save Library

Open Sketchup. Go to top menu and select **Window** > **Materials** to open the Materials window. Or click on the **Materials** window in the **Default Tray**, if it is already visible.

❸ Open Material Library

In the Materials window, click on the drop-down menu and select Birla Opus Colour Library.

❹ Explore And Use

Start scrolling to explore the contents of the library. You can change your preview preference by clicking on the flyout menu icon.

We recommend viewing as 'List view' if you want to pick a particular colour by name or code. OR use 'Small/Medium/Large Thumbnail' to select by colour shades.

Enjoy using the vast range of Birla Opus colours in your projects.

Additionally, you may download the Material Browser plugin from Sketchup's website to search for colours by their name/code.
